Practical Software for Busy Farmers

'We've been using Kingswood software as our central herd recording system for the last 15 years. As well as keeping us compliant, Kingswood enables us to stay on top of our herd management activities.'

John Buckley, Bantry
FBD Young Farmer of the Year, 2013

5 Reasons You Need Kingswood Software:

1 For Compliance without the Stress

Our farm software solution ensures that one entry updates all your records, enabling you to be fully compliant with the Department of Agriculture and Bord Bia. The integrated applications make it simple to keep your Herd Register, Animal Remedies, Calf Registrations and Fields Records up-to-date simultaneously.

2 For Herd Management at the Touch of a Button

Kingswood Herd provides a simple-to-use tool to keep track of key issues such as Breeding/Fertility, Milk Recording Analysis and Cattle Margins. Whether you run a Dairy or Beef operation, we give you access to the information you need in one place.

3 For an Investment that Pays

Our Kingswood Accounts package links in with Kingswood Herd Records, providing an effective way to liaise with your Accountant and Teagasc Advisor. We specialise in providing competitively-priced packages that are scalable and work together. As you eliminate duplication of effort, you'll save time and money.

4 For Instant Access to Information

Kingswood are the undisputed industry leaders in mobile farm computing. The Kingswood CowPad and Smart Phone options allow you to enter or look up herd, field and grass records on-the-go, wherever you are.

5 For the Kingswood Quality Guarantee

Kingswood Computing is the longest-established, best-known farming IT company in Ireland. We've been in business since 1987 and have earned a reputation for reliability and unparalleled expertise in agribusiness software. With over 5,000 clients in Ireland and the UK, we have the support network and industry knowledge that guarantees our technology will keep you up-to-date.
