

Kingswood VetLink

The Kingswood VetLink facility allows users of Kingswood Herd and Kingswood Mobile to import veterinary records from a drugs register file supplied by your vet.

File Generation

There are currently four veterinary management systems that can supply the VetLink file. For information on how to create the VetLink file in any of these systems click on the name of the appropriate veterinary management system below.

- [Kingswood VMS](#)
- [VetScope](#)
- [ComTag](#)
- [Teleos](#)

File Naming

The name of the file should contain the users Herd Number as well as the date and time the file was created e.g. V1234567_011220181230.csv.

Emailing Routine

- Kingswood Herd file should be sent to the user's special Gmail address (contact the farmer or Kingswood for this email address)
- Kingswood Mobile file should be sent to vetlink@kingswood.ie
